Coal Bed Mapping Project (CBMP)

[Project Goals](#)

[General WV Geology](#)

[About Our Maps](#)

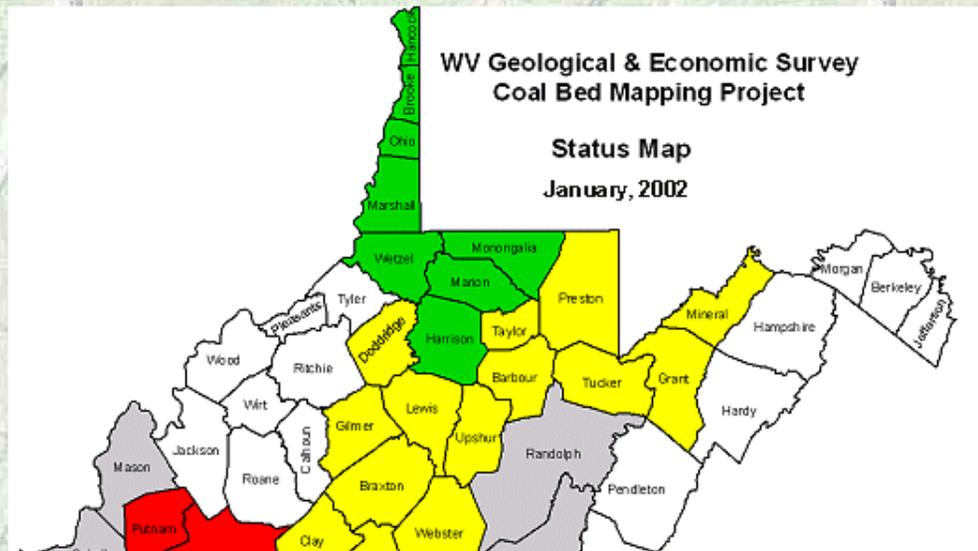

[Interactive Map Tutorial](#)

[Mine Map Archives](#)

Mapping Progress

Project geologists are mapping coal beds in a county or group of counties at a time. When completed, the statewide extent of each mapped coal bed will be available. At this time, coal beds in the counties shown in green have been mapped.

Click on one of the **GREEN** counties to view the coal bed maps currently available.

IMPORTANT: To view the Interactive Maps, it is recommended to use Netscape version 4.7, or Internet Explorer version 5 (Later versions are not yet compatible with the interactive maps). [Click here for more information.](#)

Please view the [Interactive Map Help Guide](#) before using the maps!

36" wide format printer**

Planned Improvements

- **Make georeferenced mine map images available with GIS data and via the web**
- **Make all mine map images available via the web**
 - **MHST & OSM already have them**
