

A Citizen's Handbook to Address Contaminated Coal Mine Drainage

Acknowledgments

Many people contributed their expertise to the preparation and review of this publication. EPA and OSM would especially like to thank the group of ad hoc citizens and government personnel who provided input in its development and review. The document was prepared by Tetra Tech, Inc under EPA contract #EPA-903-K-97-003.

Additional Copies

Please contact the Public Environmental Education Center (PEEC) of the U.S. Environmental Protection Agency, Region 3 at (215) 566-5121.

Table of Contents

<i>Introduction</i>	_____	<i>1-1</i>
<i>Step 1. Understanding Coal Mine Drainage</i>	_____	<i>1-1</i>
<i>Step 2. Getting Organized</i>	_____	<i>2-1</i>
<i>Step 3. Assessing the Watershed</i>	_____	<i>3-1</i>
<i>Step 4. Understanding Clean-up Options</i>	_____	<i>4-1</i>
<i>Step 5. Establishing a Clean-up Plan</i>	_____	<i>5-1</i>
<i>Step 6. Financing and Implementing Your Plan</i>	_____	<i>6-1</i>

Appendices

Appendix A: Glossary of Terms

Appendix B: Information on the Federal Surface Mining Control and Reclamation Act of 1977

Appendix C: Watershed Delineation Instructions

Appendix D: Stream Quality Reporting Form

Appendix E: Detailed Information on Treatment Technologies

Appendix F: Matrix of Possible Funding Sources

Appendix G: Fact Sheet on Frequently Asked Questions About OSM's Appalachian Clean Streams Initiative (ACSI) Funding
