

## **ACKNOWLEDGMENTS**

The authors extend their appreciation for the financial support given to them by OSMRE, Western Technical Center for this project and to Mr. Robert Postle (and his predecessor Dr. Terry Brown) and Ms. Linda Wagner for their support and guidance throughout the funding period. Appreciation is also extended to the personnel at the BNI Coal Ltd. mine, Center; Basin Cooperative Services - Glenharold mine, Stanton; Knife River Coal Mining Company mine, Beulah; and the North American Coal Corporation Coteau Properties, Beulah. Without their help to install and plant these sites, this project could not have been completed.
